

Master of Science

▪ Logistics and Supply Chain Management

Modules 6 CP | Catalogue Core Curriculum

Departement Law and Economics | March 2026

An updated catalogue of electives is published every semester for the modules (6 credit points) in the elective area of law, business, and economics in the master's degree. The selection of modules is only possible in the semester offered, depending on the cycle. Examinations can be taken every semester.

Notes on choosing modules (subject area according to § 30 (5) APB):

- When making your selection, take into account (1) the allocation according to your curriculum and (2) consider the cycle of offers when planning your studies.
- Modules whose courses only take place in one semester (one-semester modules) can only be selected in their respective semester. This is to ensure that a range of courses is available (module descriptions, see the module handbook).
- If lecturers suspend courses in the context of research sabbaticals, modules may not be offered or may only be offered for self-study. Examinations remain available.

Registration and cancellation of modules:

- Registration: You register for modules and courses in TUCaN. This is a prerequisite for registering for examinations.
- Cancellation: Due to the system, you can only independently cancel a module registration via TUCaN before the end of the selection semester. After that, you can cancel via the Office for Student Affairs as long as no work has been submitted.

Examinations:

- The form of examination (written or oral) is announced no later than the beginning of the registration period (15 Nov. and 01 Jun.).
- For oral exams, you must additionally arrange for an examination date directly with the research group.

Language:

- Modules are offered in German and English. The respective module language is marked with (D) or (E) in this overview.

Scope of application:

- This catalogue is used in following M.Sc. study regulations. Which courses fall within which degree programmes is defined in the study and examination regulations of the degree programmes.

Modulname / Module Titel	Language	Modulnr./Lecturer	Turnus	CP
International Economics	E	01-62-0M06/6	summer	6
International Trade and Investment		Nitsch	Summer
